APT Awards

Harley J. McKee Award

The Harley J. McKee Award, the highest honor bestowed by APT, recognizes individuals who have made outstanding contributions to the field of preservation technology. First presented in 1985, this award is named for the late Harley J. McKee, an early preservation architect and professor at Syracuse University, who was a founder and president of APT. His book entitled *Introduction to Early American Masonry, Stone, Brick, Mortar, and Plaster* is considered an essential resource for students of historic preservation.

Martin E. Weaver Award

The Martin E. Weaver Award recognizes the article that best demonstrates excellence in the history of technology, training and education in historic preservation, or the investigation and treatment of wood in historic buildings and artifacts. This award was created in 2008 to honor the memory of Martin E. Weaver, an architect, architectural conservator, former APT president, and noted historic preservation lecturer, who taught at Columbia University from 1991 through 2004.

- 2008 James Houston and John N. Fugelso, "Fabricating and Installing Side-Lap Roof Shingles in Eastern Pennsylvania," Vol. 39:1 (2008)

Lee Nelson Award

APT established the Lee Nelson Award in 2000 to recognize outstanding and influential books in the field of preservation technology. This award is a tribute to the late Lee Nelson, an outstanding preservationist, APT founder, and long-time editor of the *APT Bulletin*. The award is usually conferred every three years.

College of Fellows Lecturers

In 1999, in furthering its mission to advance knowledge of preservation technology among APT members, the College of Fellows established a lecture series that brings internationally known preservationists to the APT annual conferences. Each year the College of Fellows invites an expert to speak at the conference.
